

# Some Title that is very interesting

## Or at least funny?

Patrick Mischke

### Introduction

This is a poster box. Here are some features and examples on how to use this template:

- > Use  $\text{\LaTeX}$ -code as usual
- > Write stuff
- > Give me feedback if you don't like this.
- > You can also let me know if you do like it.
  - > As usual, you can stack orders of itemize.

### A Box

Another poster box. Use the column, row, span, above and below keys to position boxes. There are certainly tutorials out there how to use baposter, and I tried not to break the functionality it has.

To show how nicely  $\text{\LaTeX}$  renders math, here is some equation:

$$\int_{-\infty}^{\infty} e^{-x^2} \sin \frac{\alpha}{x} dx = \beta$$

You may have noticed, that not all the above is rendered in RedHatText. This is due to a lack of Greek letters, so RedHat is just used for latin characters and numbers.

### A wide Box

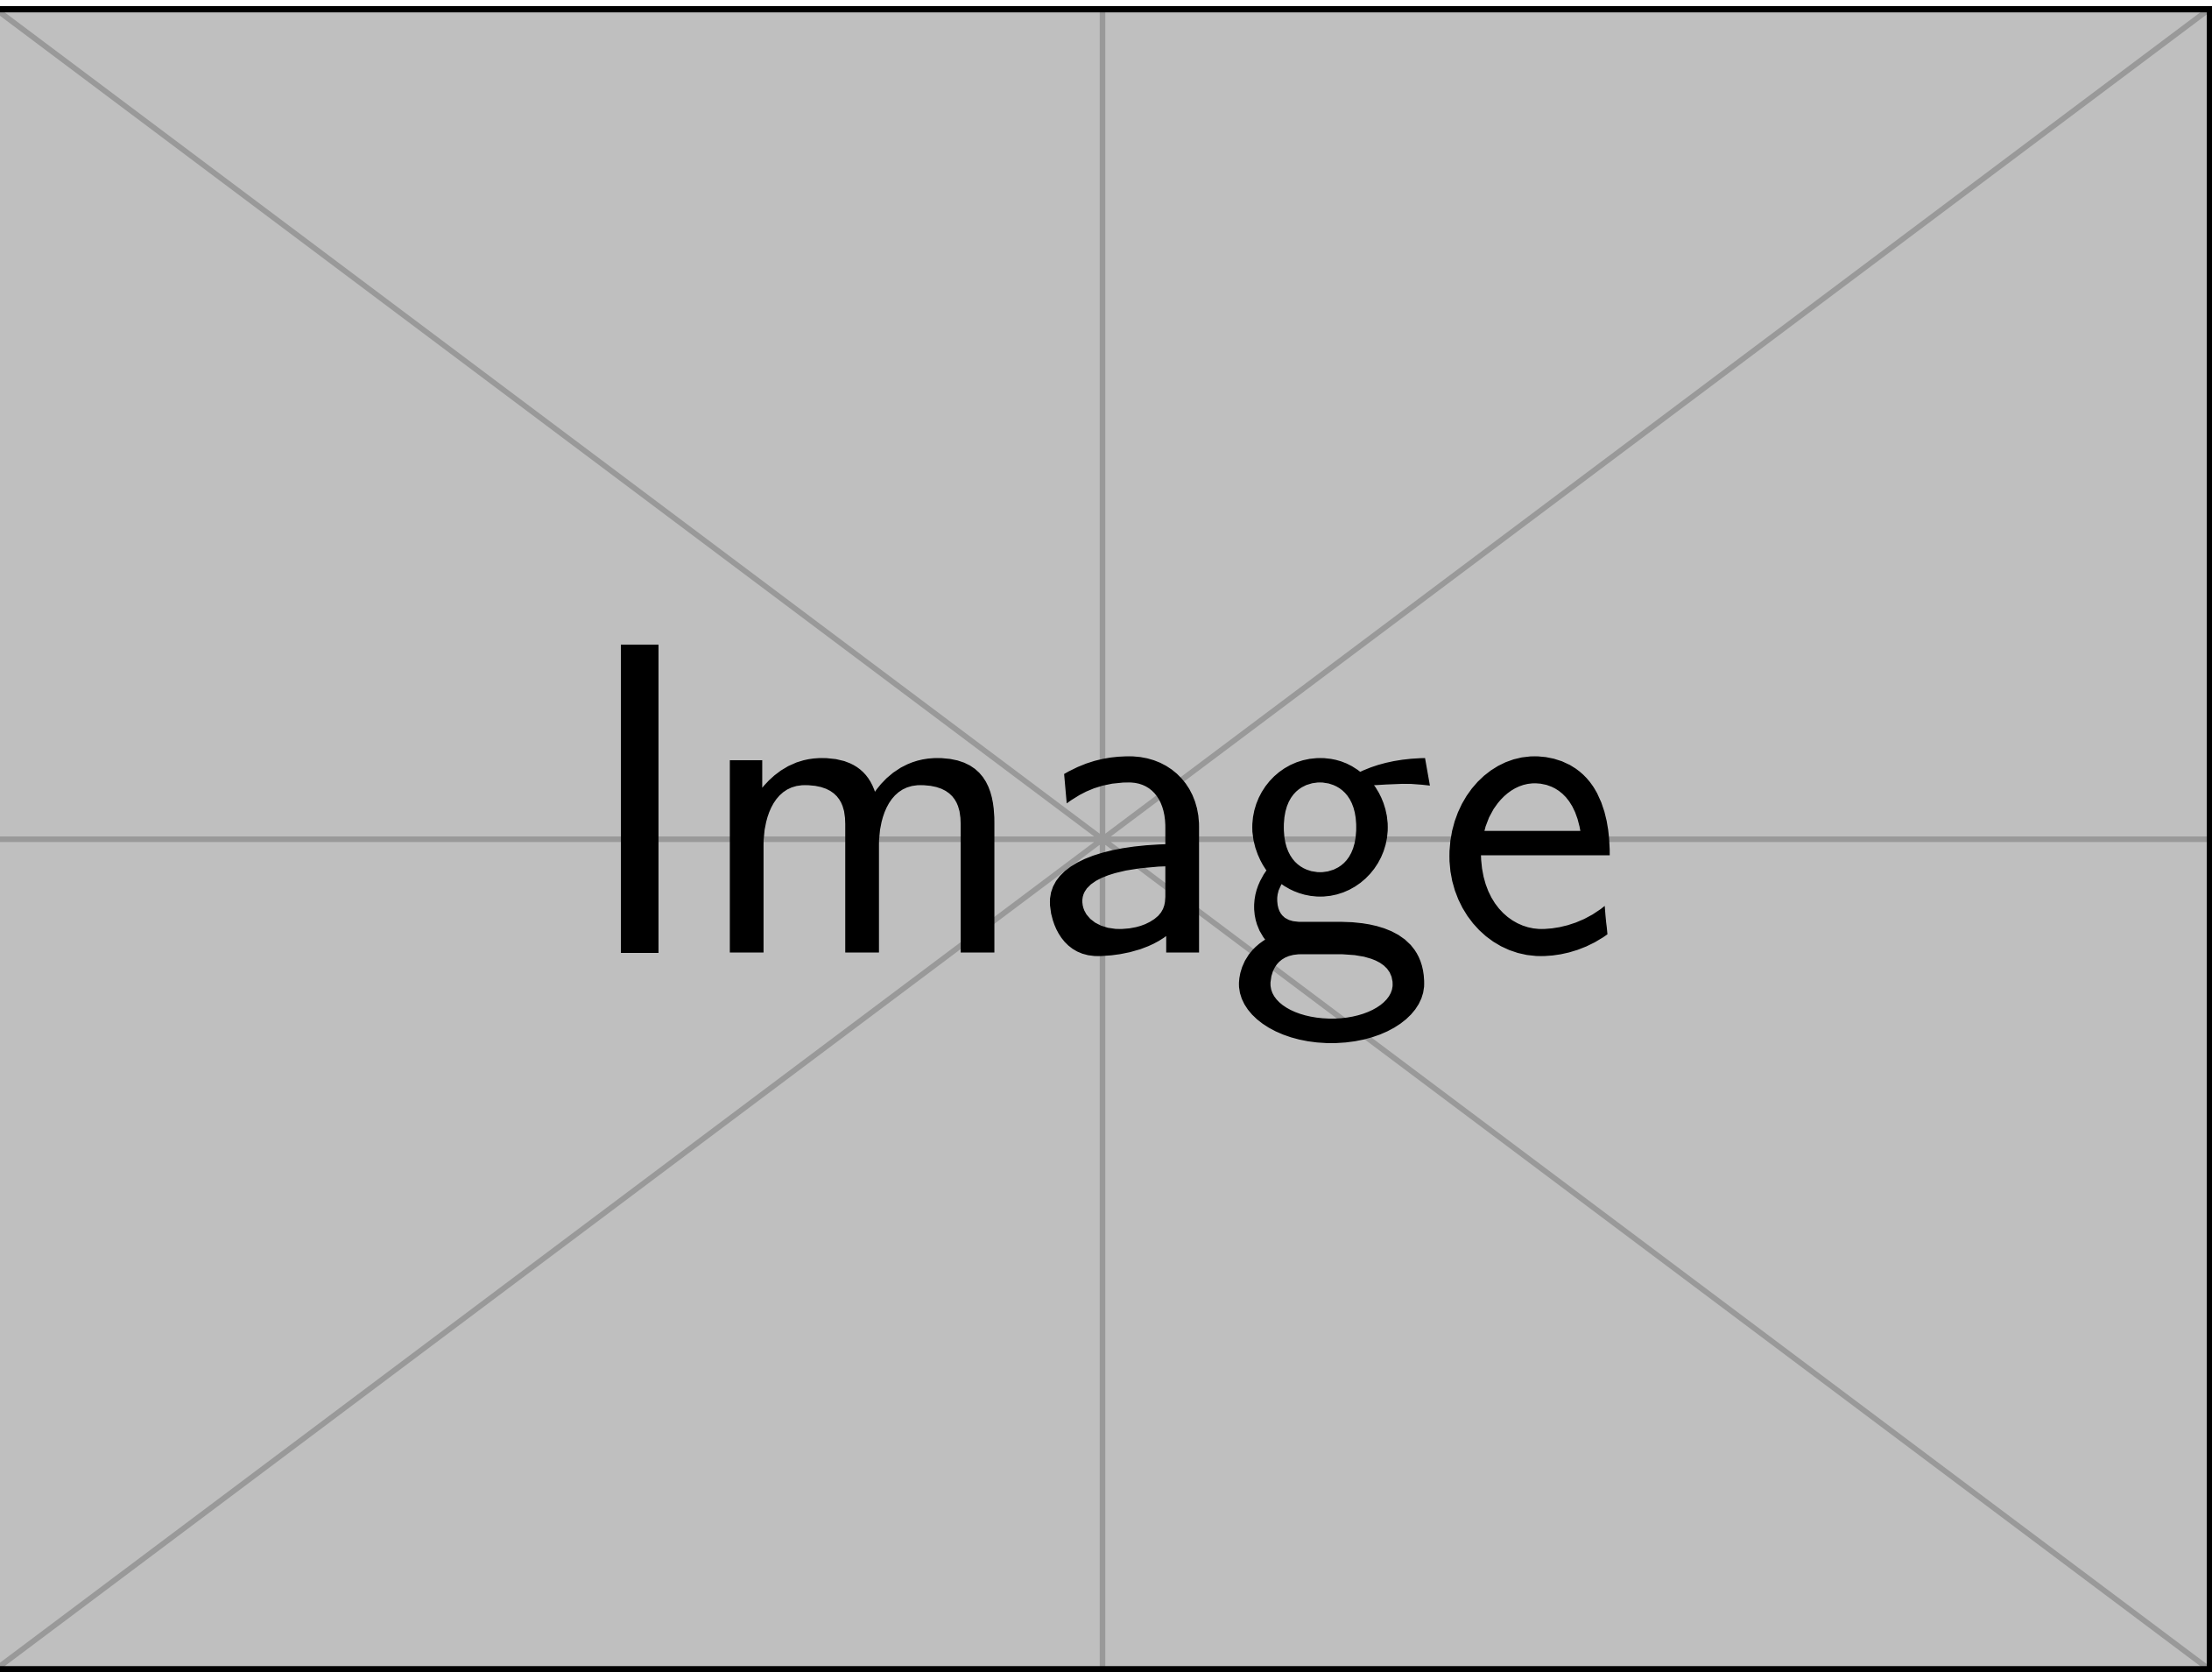

A third poster box. It's wider than the other ones, as 'span=2' is set. This allows you to write even more complicated math!

$$\int_0^1 \left( \sum_{n=1}^{\infty} \frac{(-1)^{n+1}}{n} x^n \right) dx + \sum_{k=1}^m \frac{1}{k^2} \left( \int_a^b e^{kx} dx \right) + \prod_{i=1}^n \left( 1 + \frac{1}{i^2} \right) + \lim_{x \rightarrow \infty} \left( \frac{\sqrt{x^2 + 1}}{x + 1} \right) \cdot \int_{-\infty}^{\infty} \left( \frac{1}{\sqrt{2\pi\sigma^2}} e^{-\frac{(t-\mu)^2}{2\sigma^2}} \right) dt = \sum_{j=1}^{\infty} \left( \frac{(-1)^j}{j^2} \right)$$
$$\stackrel{!}{=} \iint_R (x^2 + y^2) dA - \frac{d}{dx} (x^x) + \oint_{\gamma} \frac{1}{z} dz + \sum_{n=0}^{\infty} \frac{(-1)^n}{(2n+1)!} x^{2n+1} - \int_{-\infty}^{\infty} e^{-x^2} \sin \frac{\alpha}{x} dx$$

You have to love that, right?

### Images

Of course, common  $\text{\LaTeX}$ -packages for e.g. images work as usual here. So you can just copy and paste the stuff directly from your last paper. Awesome!

I don't know what else to write, so here is some lipsum: Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetur id, vulputate a, magna. Donec vehicula augue eu neque.

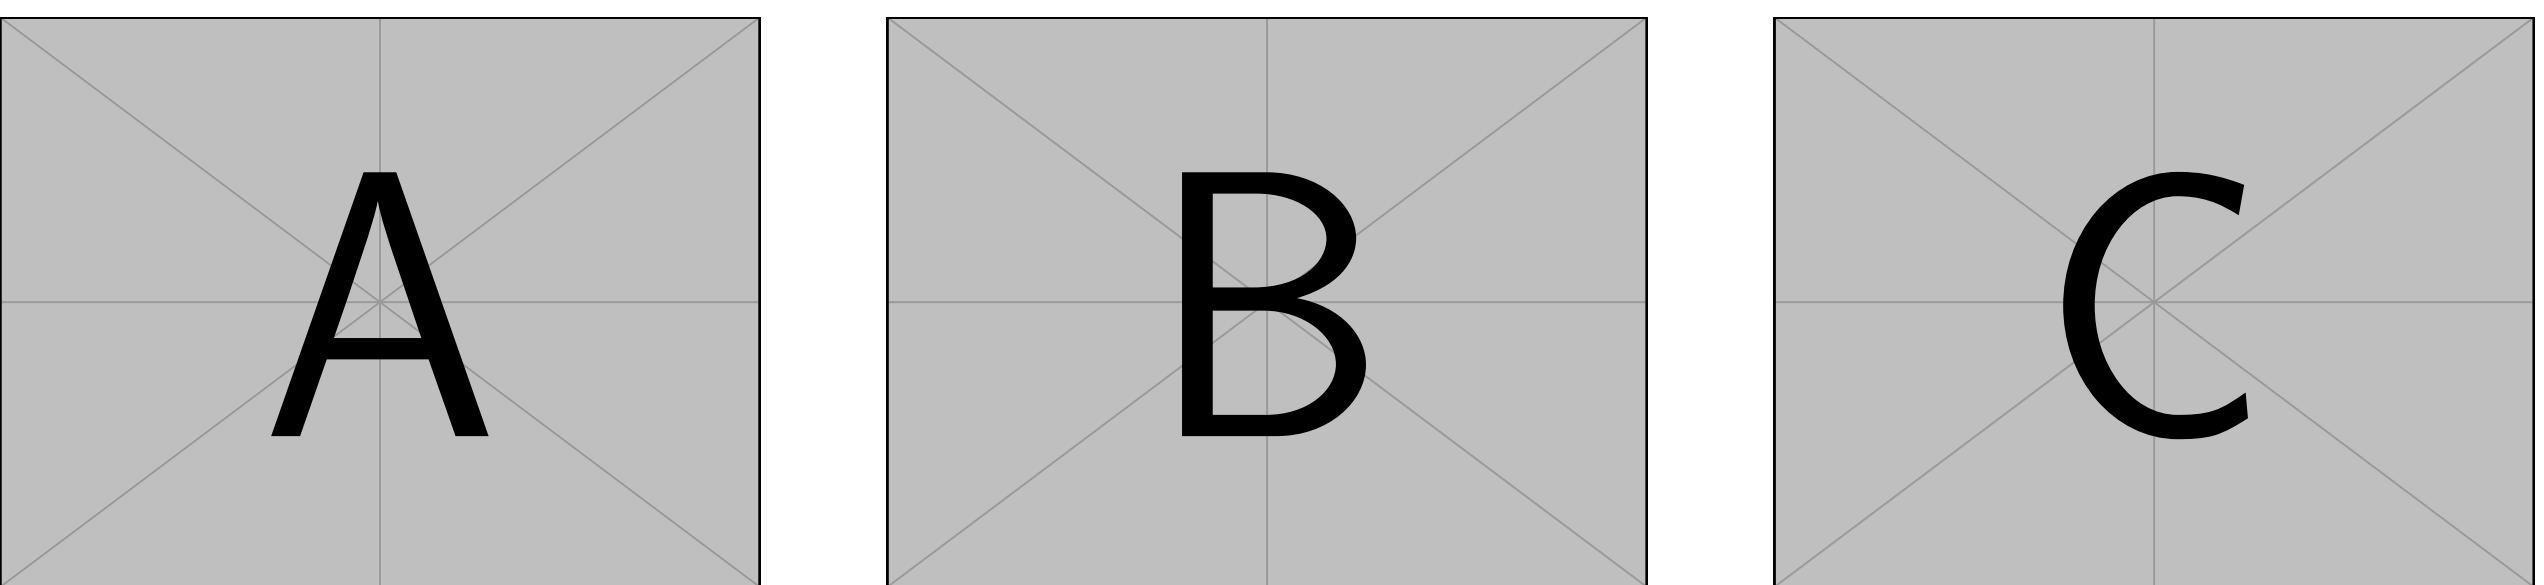

### Outlook

Well, I guess we could have... More cool posters with this template? That would be nice.

Again, I don't like white space, so here is some filler: Lorem ipsum dolor sit amet, consectetur adipiscing elit. Ut purus elit, vestibulum ut, placerat ac, adipiscing vitae, felis. Curabitur dictum gravida mauris. Nam arcu libero, nonummy eget, consectetur id, vulputate a, magna. Donec vehicula augue eu neque. Pellentesque habitant morbi tristique senectus et netus et malesuada fames ac turpis egestas. Mauris ut leo. Cras viverra metus rhoncus sem. Nulla et lectus vestibulum urna fringilla ultrices. Phasellus eu tellus sit amet tortor gravida placerat. Integer sapien est, iaculis in, pretium quis, viverra ac, nunc. Praesent eget sem vel leo ultrices bibendum. Aenean faucibus. Morbi dolor nulla, malesuada eu, pulvinar at, mollis ac, nulla. Curabitur auctor semper nulla. Donec varius orci eget risus. Duis nibh mi, congue eu, accumsan eleifend, sagittis quis, diam. Duis eget orci sit amet orci dignissim rutrum.

### Other Logos

There is no specific location within the poster for these logos elsewhere (e.g. in the footer). So just place them here at the bottom right.

**License:**  
Stuff like the logos are probably owned by the RPTU.

**Contact:**  
Please open an issue at GitHub or email me.
